

Frank Simpson

From ceicdata.com from 31st Dec 1950 to 31st Dec 2019 Australia's population increase from 8.2 million to 25.5 million. One of the highest population developed country growth rates at a cost to it's natural environment and decline in city and urban quality of life due to transport congestion & provision of adequate essential public health, housing & education facilities. Such population growth has not resulted in an increase in USD terms GDP per capita 52,158 at Jun 2020. It was 68,767 Jun 2013. Denmark USD 2019 GDP per capita 60,186. 1950 population 4.281 million & 5.800 today. Proof population growth does not equate to an increase in GDP per capita. By population growth logic China & India should be the wealthiest countries.
